# Meter Cabinet

## PRIMARY FUNCTION

Meter Cabinets allow our customers to monitor many circuits on one centralized location.

Power B KW inst	Power C KW inst	Total KW KW inst
145		439
KVAR B instant	KVAR C instant	Tot KVAR Instant
52	55	158
KVA B instant	KVA C instant	Tot KVA Instant
158	155	466

## VARIETY

Many **styles** and **sizes** of meter cabinets are available. With today's requirements for efficiency in the Data Center, the demand for these meter cabinets has been **high**.

## ANY SIZE, ANY QUANTITY

These meter cabinets can be scaled to **any size and quantity** and can be **easily** inserted into your power system for effective and accurate monitoring.

## REMOTE METERING

We also offer the option of **remote metering** via modbus and localized touch screen display. The touch screen allows us to display **multiple meters** on one screen; as many as the communication network will allow.
